CAPITOL IMPROVEMENTS.

by Governor Lee.

The Governor desires to have the interior of the Capitol looked after more closely, with the view of having it kept in a presentable shape, and he is anxious to have some changes made that will show we are keeping abreast with the times. He wants an elevator put in as soon as possible, so that rapid and easy communication may be had between the basement offices and those of the Governor, Secretary of the Commonwealth, Southern Historical Society, Library, &c. By using an elevator all the steps on one side could be taken away, thus giving space for three more rooms-viz., one in the basement, one on the first landing, and one on the Library floor, By this arrangement it is thought that some of the outside offices in rooms which the State is now paying rent for can be moved into the space thus made available, which would save the State enough money to more than pay for and keep up these improvements. The Governor would also do away with all the peanut and other stands in the rotunda, and have one of the new rooms devoted to a neat, clean restaurant, where n liquors should be sold, but where hot coffee, oysters, &c., might be obtained. By this plan members of the Legislature and others interested could be saved the necessity of going long distances to refresh the inner man when their duties detain them within the

To be sure the Capitol has existed years without such facilities, but what f that? Because our forefathers travelled on horseback with saddlebags or in rude vehicles it did not prevent the

Bishop Keene's Reference to Sudden

Sunday morning Bishop Keene preached at the Cathedral, and his theme was "The Holy Name of Je-He impressed upon his hearers the beauty and grandeur of the life of the Redeemer. The name of infinite love, he said, is the name of our Saviour, and he is leading us from the abyss of darkness and evil to the mountain-tops of truth and holiness. His name is our battle-cry of victory over all evil-the bugle-blast that spurs our onward march towards our glorious destiny. The Bishop spoke of how the sacred name of Jesus had inspired martyrs at the stake; how it had nerved maidens to meet death calmly; how it is an ever-present

Speaking of the duty of preparation for the life to come, he said the report of death is ever ringing in our ears, and the morning's paper had told how a member of the Legislature was stricken to death at his desk, and how the daughter of the Secretary of State, when sought for to dress for the reception at the President's, was found to be in eternity.

Religion's a grand thing! There is nothing on earth like it, and nothing in heaven better than religion. A poor tempest-tossed, tempest-driven thrown hither and thither in helpless wandering, tired, restless, and hungry, finds a haven there. Oh! how dark it was once for me! how hungry this poor soul was once! How like the crest of a wave! I knew no rest. But I found it in religion. Religion! religion! It's a great word.

I remember the old Irishman who said, "I hope I'll never live to see my wife married again." I'll tell you another thing : I don't know how the preachers have been preaching to you-they are all better men than I am-but if the occupants of the two hundred pulpits in Cincinnati will stand up and talk, like the fine-looking brother did this afternoon, for Whenever a man gets more religion law and order, sobriety and righteousthan he has sense, he's going to talk ness will prevail in this town.
